## NATIVE AMERICAN ASSOCIATION.

Preamble and Constitution of the Native American
Association of the United States.

Association of the United States.

Whereas it is an admitted fact that all Governments are not only capable, but bound by all the principles of national preservation, to govern their affairs by the agency of their own citizens: and we believe the republican form of our Government to be an object of fear and dislike to the advocates of monarchy in Europe, and for that reason, if for agine other, in order to preserve our institutions pure and unpolluted, we are imperatively called uptions pure and appoiluted, we are imperatively called upon to administer our peculiar system free of all foreign
influence and interference. By admitting the stranger
indiscriminately to the exercise of those high attributet
which constitute the rights of the native born Amerihan
citizen, we weaken the attachment of the native, and agai
naught but the sordid allegiance of the foreigner. The
rights of the American, which he holds under the Constitution of the Revolution, and exercised by him as the glorious prerogative of his birth, are calculated to stimulate to action, condense to strength, and cement in sentiment

and patriotic sympathy.

Basing, then, the right and duty to confederate on these high truths, we profess no other object than the promotion of our native country in all the walks of private honor, public credit, and national independence; and therefore we maintain the right, in its most extended form, of the native born American, and he only, to exercise the various duties incident to the ramifications of the laws, exeous duties incident to the ramifications of the laws, executive, legislative, or ministerial, from the highest to the lowest post of the Government; and to obtain this great nd, we shall advocate the entire repeal of the naturalization law by Congress. Aware that the Constitution forbids, and even if it did not, we have no wish to establish ex post facto laws; the action we seek with regard to the laws of naturalization, is intended to act in a prospective character. We shall advocate equal liberty to all who were born equally free; to be so born, constitutes, when connected with moral qualities, in our minds, the aristocracy of human nature. Acting under these generic princracy of human nature. Acting under these generic prin-ciples, we further hold that, to be a permanent people, we must be a united one, bound together by sympathies, the result of a common political origin; and to be national, we must cherish the native American sentiment, to the entire and radical exclusion of foreign opinions and doctrines in-troduced by foreign paupers and European political ad-venturers. From Kings our gallant forefathers won their liberties—the slaves of Kings shall not win them back

Religiously entertaining these sentiments, we as so-lemnly believe that the day has arrived, when the Ameri-cans should unite as brothers to sustain the strength and purity of their political institutions. We have reached that critical period foreseen and prophesied by some of the clear-sighted apostles of freedom, when danger threatens from every ship that floats on the ocean to our shores; when every wind that blows wafts the ragged paupers to our cities, bearing in their own persons and characters the elements of degradation and disorder. To prevent the elements of degradation and disorder. To prevent these evils, we are now called upon to unite our energies. To fight over this great moral revolution, the shadow of our first revolt of glory, will be the duty of the sons of those wars, and we must go into the combat determined to abide by our country; to preserve her honor free from contagion, and her character, as a separate people, high and above the engraftment of monarchical despotisms.

## ARTICLES OF THE CONSTITUTION.

First. We bind ourselves to co-operate, by all lawful means, with our fellow native citizens in the United States to procure a repeal of the naturalization law.

Second. We will use all proper and reasonable exer-tions to exclude foreigners from enjoying the emoluments or honors of office, whether under the General or State Third. That we will not hold him guiltless of his coun-

try's wrong who, having the power, shall place a fereigner in office while there is a competent native willing to accept Fourth. That we will not, in any form or manner, connect ourselves with the general or local politics of the country, nor aid, nor be the means of aiding, the cause of any politician or party whatsoever, but will exclusively advocate, stand to, and be a separate and independent party of native Americans, for the cause of the country, and upon the principles as set forth in the above preamble and these articles.

above preamble and these articles.

Fifth. That we will not, in any manner whatever, connect ourselves, or be connected, with any religious sect or denomination: leaving every creed to its own strength, and every man untrammelled in his own faith; adhering, for ourselves, to the sole cause of the natives, the establishment of a national character, and the perpetuity of our institutions, through the means of our own

PROSPECTUS OF THE NATIONAL MAGAZINE AND REPUBLICAN REVIEW.

Secretary of Secretary Section 1.

H. J. BRENT, ESQ. EDITOR. THE NATIONAL MAGAZINE AND REPUBLICAN RE-VIEW will be published in the city of Washington, Dis-trict of Columbia, on the 1st day of January next, and de-livered monthly in all parts of the United States, devoted exclusively to the advancement of the great principles of the Whig party, and the encouragement of literature and science. The experience of the past year has confirmed in the

The experience of the past year has confirmed in the minds of the more reflecting and sagacious of the Whig party that a vacuum exists in the periodical press of the country, in which should be combined the productions of our great statesmen on literary and scientific subjects, and those of the eminent literary geniuses of which the United States can boast so ample a share, on the various subjects that present themselves to a sound and vigorous intellect. It cannot be doubted that the present crisis demands the publication of a work calculated to infuse and circulate true and honest political information, and to counteract the direful influence exerted by a monthly periodical act the direful influence exerted by a monthly periodical

pices, and bearing the name of the self-styled Democracy of the present day, advocating measures which, if successful, are destined to moulder to ruins the fabrick of our noble Constitution, by placing constructions on it to suits the caprice and advance the reachings of a corrupt ambition. The union of such principles with a general literature as have insulted the common sense and honesty of the country, by proclaiming the "Martyrdom of Cilley," rendered in a manner more detestable from the insidious way in which they are combned, tends directly to the disorganization of all that, as Americans, should be held most sacred. This combination is calculated to secure them a circulation in quarters to which they might not otherwise penetrate, as well as from a certain deceptive air of high toned philanthropy and expansive liberality of views, with which they are artfully able to invest themselves, for the purpose of stealing their way into the heads through the unsuspecting hearts of that class on which depends the destiny and hopes of the nation—its young men. Whilst the mor experienced sagacity of older heads can never hesitate a moment in recognising

the real naked deformity of these principles of modern Radicalism, under all the fair seeming disguises they may assume, yet to the young they are replete with a subtle the most pernicious character. The National Magazine and Republican Review is designed, and will be conducted with these and other high important considerations in view, calculated to correct misconstructions, and to inculcate the correct political principles on which are based the views and practice of the great Republican Whig party, as well as for the encouragement and maintenance of genuine politic literature. The publishers will neither spare expense in the mechanical department of the work, nor their utmost efforts to render the Review useful to the Public in a literary point of view, and honorable to the country and cause which it

s destined to espouse as a National work. The period is fast arriving when the country will emerge from the dominion of a party which has come into power under the corrupt influence of a misled popular prejudice, and which has advocated and sailed under the broad and corrupt motto of office-seekers, "to the victors belong the spoils of the vanquished." being alike anti-republican, unconstitutional, and a foul stain upon the

republican, unconstitutional, and a four stain upon the free institutions of the country, that can only be eradicated by the triumph of the principles which govern the Republican Whig party of the present day.

The advocates of the principles alluded to, who have stood foremost in defence of the Constitution and Laws when they were as diminutive as a party could be, exer ing the strength of a Leonidas battling with the host to Xerxes, and have nearly succeeded in rescuing the Government from the grasp of corruption, will deem it their imperative duty to continue their efforts, and it cannot better be done than by supporting a periodical of high standing for sound political principles and literary worth; and such a one will be found in the National Magazine

and Republican Review.

'The success of the Magazine will therefore depend, in a measure, on the great body of the opponents of the present Administration, whose interest it will be to aid in its permanent establishment. And it will be equally binding on the talented and patriotic band of leading Whigs to spare neither time nor labor to the explanation and advocacy of the true and only principles on which the Government can prosper, and which depends the great experiment of Republican Gov-

PROPOSALS For publishing in the city of Washington a weekly news-paper, it be devoted to the interests of Religion

and LITERATURE, to be called THE METROPOLITAN CHURCHMAN

REV. PHILIP SLAUGHTER, EDITOR. WHEN a Minister of the Lord Jesus Christ ceases to preach the Gospel, a decent respect for the opinions of the Church and the world requires that he should declare the causes which impel him to take this step. In the present case the Editor was arrested in his ministerial functions by the hand of disease, and his voice husled by the precept of the physician. He is driven, therefore, by an imperious necessity to do comething for the support of his family. Shall he go back to the world end resume his secular pursuits? Most secular occupations would be as incompatible with the state of his health. would be as incompatible with the state of his health, as revolting to his feelings and principles.

The only alternative, then, is to adopt that mode of life which is most kindred to his profession, and which, next to the living voice of the preacher, seems to be the most fitting instrument to promote the grory of God, and the happiness of his creatures. In his judgment a reli-gious press is that instrument—the press being confessedgious press is that instrument—the press being confessed y one of the mightiest levers that moves this moral world. He has chosen Washington as the locality of this press for various reasons. It is a centre from whence roads and canals radiate to every point in our extensive territory, affording apportunities of easy and speedy communication with every diocesce in the Union. 2dly, as the political metropolis of this great Nation, it is the source of mighty moral influences for evil or for good. Every interest in the country is beginning to appreciate the importance of this fact. Newspapers, margazines, and pamortance of this fact. Newspapers, margazines, and pamportance of this fact. Newspapers, magazines, and pamphicis, expressing every variety of opinion, in politics, morals and religion, are daily going forth as missionaries to every State, town, county, and family of this great nation, fixing the principles, and moulding the mamers of its citizens. Under these circumstances he has thought hat the Episcopalians of the United States would like to ee a press established at this great centre of moral influences, displaying the ensigns of the Gospel, and inscribed with the motto of that Church which was built upon the with the motto of that Church which was ball upon the foundations of the Apostles and Prophets, was comented with the blood of a glorious army of martyrs, and which says to the angry surges of error, which are beating against her bulwarks, and battering down the walls of other societies, there shall thy proud waves be stayed.

The general design of this paper will be the advancement of society in knowledge and religion; and to this and, the aid of various gentlement, distinguished in the walks of literature as in the walls of the Church, has been
